EVERYTHING FOR EVERY SPORT FOR EVERY SEASON

### School Days are Dayton Days

To the boys and girls who have Dayton bicycles, the trip to school is a zippy ride on a wheel that "gets there" in a hurry, in plenty of time to avoid lateness and gives a little more leisure for chores at home.

Then, when school's over for the day, a quick ride home, books are put away and most of the afternoon's left for play. If errands are to be run, a Dayton's the thing to have. It's easy to pedal to the store and back between innings and when it comes to just riding around for fun, a Dayton is the smoothest, easiest running, strongest bicycle in the world.

## Buy Him a DAYTON to ride to School

Dayton bicycles, for which we are exclusive agents, sell from \$47.50 to \$60.

Other fine makes which we show are priced as low as \$42.50.

Liberal discount for cash and face value of Liberty bonds allowed on all bicycle purchases. Let us show you our fine models for boys, girls and grown-ups.

### COMMITTEE IS NAMED TO RECEIVE THE PRESIDENT

Prominent men and women of the state will be selected to aid the governor in this work.

President Wilson is due to arrive in Salt Lake at 4:30 o'clock from Reno, Nev., on September 23, and it is expected that President Wilson will depart for the east at 10 o'clock that evening. Ogdan members of the committee will meet at 2:30 o'clock tomorrow afternoon to further plans for the event.

### Heavy Movement of Troops Through to Pacific Coast

Red Cross workers at the canteen at the Union depot expect one of the busiest weeks of the season to open today. Two troop trains bound for the west are expected in Ogdan late this afternoon. During the remaining days of the present week scores of re-

Governor Simon Bamberger of Utah has selected several prominent Ogdanites as members of the Utah state committee to welcome President Wilson and his party to Utah September 23. The following Ogdan men were named on the committee: Mayor T. S. Browning, President Federation of Women's clubs; J. U. Ralph E. Bristol of the Ogdan Rotary club; Mrs. R. B. Porter of the Ogdan Federation of Women's clubs; J. U. Eldredge, Jr., of the Ogdan Examiner; and Frank Francis of the Ogdan Standard. Governor Bamberger will be chairman of the reception committee.

## GOVERNMENT OFFICERS ARE PRYING INTO MOB VIOLENCE COMMITTED IN THIS CITY

With the return to Salt Lake of C. H. Heighton, one of Uncle Sam's deputies, additional evidence was gathered concerning the demonstration of railway employees and citizens in Ogdan last week. During the demonstration several men were forced to walk through the gutters of Ogdan barefooted while a great many others were humiliated by being compelled to show their railway tickets.

Search has been instituted in Salt Lake for George Philip Stevens, aged 19, who is alleged to have been taken from the local depot and subjected to ill treatment by union men. According to government officials in Salt Lake, the youth will be able to point out some of the leaders.

Preparation for warrants for the arrest of several local men will be started today and it is expected that at least twenty Ogdan men will be arrested by the federal government.

The Stevens boy, according to Dave Gershon, United States department of justice official, suffered an injustice.

He was en route to the home of his aunt in Los Angeles when he was taken from the train. Young Stevens was compelled to telegraph his relatives to prove that he was not journeying to Los Angeles for employment on the railroad there. It is alleged that he was kept under guard in a local hotel while awaiting an answer. However, Young Stevens managed to escape early in the morning of the following day when his guard fell asleep.

The boy was deprived of his rights in every manner according to government officials. His ticket was taken from him and destroyed, which alone constitutes an offense against the government for which the men involved can be severely punished.

A second innocent passenger was also mistreated and may also figure in the evidence against the demonstrators. Several instances of mistreatment have been reported and the federal authorities expect to take action within a few days.

## SURVIVOR OF CUSTER MASSACRE VISITS OGDEN WITH FAMILY AND RECALLS EXPERIENCES

Alfred L. Chapman, aged 75, famous Custer scout and guide, and said to be the only living survivor of the battle in which General Custer gave his life, is in Ogdan with his wife and son, Theodore, en route to San Francisco.

Chapman, although 75 years of age, is hale and hearty and talks with the snap of a young business man. During the past five years he has been traveling over the United States lecturing on his experiences during the great battle with the Indians, in Wyoming, in 1873-74-75.

Chapman was a member of the Seventh United States cavalry and was one of the leading guides under General Custer's command.

In 1876 General Custer and his regiment took part in the campaign started by General Sheridan against Sitting Bull, then in the Yellowstone region with about 6,000 Indians under him. The plan involved, according to Chapman, was to concentrate all of the three commands under Crook, Terry and Gibbons. Terry and Gibbons having joined forces, and the Indians having been located on the Little Big Horn river in Wyoming, Custer was sent in advance with his command to prevent their escape to the eastward.

Arriving a day before the designated time, and seeing but one Indian village, turning men are expected to pass through this city.

Yesterday afternoon the workers of the Red Cross banqueted dozens of men en route to San Francisco. Peaches and other fruits together with sandwiches and coffee were distributed to the soldiers.

Custer divided his forces and charged at the head of 277 men, only to be surrounded by Sitting Bull's entire force. Chapman stated this morning that all of the men in the charge except himself were killed outright by the swarm of Indians. He received a wound and it was only after several hours of pain and waiting that he was able to make his getaway.

Custer's other detachments maintained a stand with difficulty until Terry's arrival. General Custer's body was found in the center of his men, the Indians having refrained from mutilating his body out of respect for his bravery. He was the best of a soldier, tall, handsome in figure and appearance, dashing in battle and tender in his dealings with those weaker than himself.

The fight, according to Chapman, was waged with little success by the troops of the United States as the vast number of Indians made attempts futile.

Theodore Chapman, son of the famous guide and traveler, is a youth of 18 with the same characteristics that has made his father famous in America. He is handsome in figure and appearance, dashing in battle and tender in his dealings with those weaker than himself. The family expects to depart for San Francisco today.

## SPECIAL CARS ARE TO TAKE OGDENITES TO LECTURE

Extra cars to accommodate the Ogdan delegation, who, with Attorney Arthur Woolley as chairman, will attend the lecture of Major J. Rueben Clark, Jr., at the Salt Lake tabernacle this evening, will be provided on the Bamberger train which will leave the local depot at 6:30 o'clock.

Special arrangements for the return trip from Salt Lake have also been made. Emma Lucy Gates, Utah soloist, will deliver two numbers at the meeting, while other musical numbers will be given. The program follows:

Opening number, selection by Sweeten's band; invocation, Apostle David O. McKay; solo, "Thou Charming Bird," from the "Pearl of Brazil," Miss Emma Lucy Gates; and "America For Me," written by Henry Van Dyke; address, Major Clark; "The Star Spangled Banner," in which the audience, led by Anton H. Lund, choir leader, will join. The closing number will be by the Sweeten band.

FOR MEN WHO WORK HARD. Factory workers, railroad men, farmers, miners, mill employees and all men who work at hard, straining physical labor are more or less subject to kidney trouble. Nature gives warning signals by frequent lameness, stiff joints, sore muscles, backache and rheumatic pains. J. G. Wolf, Green Bay, Wis., writes: "Foley Kidney Pills relieve me of a severe backache, that had bothered me for several months. A few bottles fixed me up in good shape. A. R. McIntyre Drug Co.—Advertisement."

## BOMBING OF LONDON CAUSED MAN TO MARRY

Stating that he had married an English widow, whose trials and experiences in London during the bombing outrages had excited his sympathy, merely to provide the woman and her three small children with a home on his ranch in California, a repatriated British soldier arrived in Ogdan this morning and was entertained at the Red Cross canteen, together with his wife and her children.

The soldier was an American who, at the time of the outbreak of the war, was visiting in England. He enlisted with the British forces and spent four years in the field with English troops. Over a year ago he was severely wounded and was sent from France to

## Mother Why Don't You Take Nuxated Iron

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All the Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You Are and Now She Looks Just Fine.

NUXATED IRON WILL INCREASE THE STRENGTH AND ENDURANCE OF WEAK, NERVOUS, CAREWORN, HAGGARD LOOKING WOMEN IN TWO WEEKS' TIME IN MANY INSTANCES. THE CHILD'S APPEAL

"There can be no Beautiful, Healthy Rosy Cheeked women without iron."

F. KING, M. D.

"There can be no healthy, beautiful, rosy cheeked women without iron," says Dr. Ferdinand King, a New York Physician and Medical Author. "I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anemia. The skin of the anemic woman is pale, the flesh flabby. The muscles lack tone, brain fags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

In the most common way, America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from the impoverished food and ally method of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked are responsible for another grave iron loss.

Therefore, you should supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt. "I have used Nuxated Iron widely in my own practice in most severe aggravated conditions with unfailing results. I have induced many other physicians to give it a trial, all of whom have given me most surprising reports in regard to its great power as a health and strength builder."

Dr. Schuyler C. Jaques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information of

advice for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages there are probably thousands who might readily build up their red blood corpuscles, increase their physical energy and get themselves into a condition to ward off the millions of disease germs that are almost continually around us.

It is surprising how many people suffer from iron deficiency and do not know it.

Iron is absolutely necessary to enable your blood to change food into living tissue without it, no matter how much of what you eat, your food merely passes through you without doing you good. You don't get the strength out of food and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the some cases been going on for months without getting benefit from anything. But don't take the old form of reduced iron.

Iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children, is alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good otherwise it may prove worse than useless.

Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance which comes from having plenty of iron in the blood; while many another has gone down in inglorious defeat simply for the lack of iron.

Manufacturers' Note:—Nuxated Iron, which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by A. R. McIntyre Drug Co., and all other druggists.—Advertisement.

You can tell the women with plenty of iron in their blood—beautiful healthy rosy cheeked women full of Life, Vim and Vitality.

Dr. Ferdinand King, New York Physician and Medical Author, says that Physicians should prescribe more organic iron—Nuxated Iron—for their patients—Anemia—iron deficiency is the greatest curse to the health, strength, vitality and beauty of the modern American Women—Sounds warning against use of metallic iron, which may injure the teeth, corrode the stomach, and in many cases do more harm than good; advises use of only Nuxated Iron.

### NEW FRILLS FOR LATE SUMMER

Here are sketched two of the best types in late summer fashions. One of the smartest afternoon frocks of the season is of flesh-colored palette, with an over-bouise and tunic of pink-tinted pink georgette crepe, with buttons covered in the heavier material. An artfully draped turban of the costume. French blue Haon joins forces with embroidered voile to produce a stunning creation. The side panels button on the skirt like bottomless
